

M2PM5 METRIC SPACES AND TOPOLOGY POLICY ON COLLABORATION

PROF. TOM COATES

I encourage you to work with other students in the class on the problem sheets. You are also free to work with other students in the class on the Assessed Coursework. However, for the Assessed Coursework you must:

- write up your work yourself, in your own words;
- if you learned a significant idea from another person, include an acknowledgement indicating this.

You are free to make use of other sources too (textbooks, websites, etc.) but if you learned a significant idea from such a source then you must include a reference to it in your writeup. Including acknowledgements and references will *not* decrease your grade for the Assessed Coursework; on the other hand failing to include appropriate acknowledgements or references is [plagiarism](#) and will be treated as such.
